

Q-RAILING SYSTEMS

THE IDEAL SOLUTION FOR EVERY PROJECT

THE PREMIUM BRAND IN RAILING SYSTEMS

Q-railing

BRING YOUR VISION TO LIFE

WELCOME TO Q-RAILING, YOUR SOURCE FOR INNOVATIVE, HIGH GRADE, DESIGNER RAILING SYSTEMS. OUR SYSTEMS SERVE AS SUPPORTS AND GUIDANCE ALONG STEPS AND STAIRWAYS, AND AS SAFETY BARRIERS AROUND BALCONIES AND BETWEEN FLOOR LEVELS.

Our railings systems are built from our high quality modular products. In fact, all 2000+ of our individual products are modular in design, largely interchangeable, and quick and straightforward to install. This means that you are free to combine elements from various systems to create a completely new look. With Q-railing, your design possibilities are truly endless!

For more information about all our systems and individual products, please visit www.q-railing.com or contact us by phone or email.

WHY Q-RAILING?

QUALITY

Get the high quality your projects demand

- Consistently high grade surface finish
- Extremely accurate dimensions and tight tolerances

EASY ORDERING

Start construction without delay

- 99% of our products are available from stock
- Phone and email ordering available during business hours
- Sales Consultants who are ready to help
- Same-day shipping for orders placed before 12PM PST on business days for in-stock items

WIDE RANGE

Choose from a large variety of railing systems

- Products are modular; mix and match among styles and systems
- Round, square and flat shapes are available
- Q-railing products are made of high quality grade 304 or 316 stainless steel, aluminum or zinc

INNOVATION

Deliver a state-of-the-art end result every time

- Ground-breaking new solutions make installation faster and easier
- Products are designed to make welding unnecessary
- BIM objects, CAD drawings and other technical specifications downloadable from www.q-railing.com

SAFETY

Rest assured that all products and systems have been extensively tested

- Products are tested in Q-railing's in-house test laboratory
- Quality confirmed by certification from independent international testing institutions and leading Enforcing Authorities

DESIGN

Benefit from a design focus

- Timeless good looks – created by our design team and award-winning designers
- Straightforward designs with easy installation methods help you achieve significant savings during the construction process
- Safety and practicality assured with every Q-railing product

EASY GLASS® HYBRID

THE BEST OF TWO WORLDS

EASY GLASS® HYBRID IS Q-RAILING'S LIGHTEST AND MOST ECONOMICAL GLASS RAILING SYSTEM. IT IS DESIGNED FOR EASE OF INSTALLATION AND LOW MAINTENANCE.

You can use Easy Glass Hybrid as a full glass balustrade mounted between two walls. With the larger of the two cap rails you can create a baluster-free railing up to 4 feet wide. Should your project call for a longer balustrade, simply add the slender baluster posts. The system's modular structure gives you a lot of flexibility as to how many of them you need.

The steel balusters are available in two sizes, for top mounting. Their silver-grey powder coating makes for a striking contrast with the aluminum of the base shoes and cap rails. The aluminum products come with a matt silver effect or in a raw version. All are slim and elegant, contributing to a minimalistic look that affords maximum transparency.

- Economical glass balustrade solution
- Lightweight aluminum base shoe
- Mountable with or without slender balusters
- Up to 4 feet between posts
- Integrated water drainage system

Designed for:	Light and medium use
Use:	Indoor and outdoor
Varieties:	Top and fascia mount
Applications:	Balustrades
Material:	Aluminium (matt silver look or raw) and steel (galvanised or powder-coated RAL 7047)
Infills:	Glass
Glass thickness:	5/16" to 9/16"
Top finish:	Cap rail

BIM

EASY GLASS® SLIM

SLIM DESIGN, BIG IMPACT

BRING A DRAMATIC 'WOW' FACTOR TO YOUR PROJECT. EASY GLASS® SLIM COMBINES PERFECT DESIGN AND OPTIMAL TRANSPARENCY INTO AN ECONOMICAL GLASS BALUSTRADE SOLUTION. THANKS TO ITS LIGHT WEIGHT BASE SHOE, EASY GLASS® SLIM IS EASY TO MANEUVER ON SITE, SAVING ON INSTALLATION EFFORT AND TIME!

Easy Glass Slim is a complete and affordable solution for both interiors and exteriors. It is perfect for private residences, commercial buildings, retail shops and more – anywhere that calls for a minimalist and transparent look.

Due to its unique Safety Wedge system, installing the glass panels is fast and easy. Easy Glass Slim is a great example of how design, safety and functionality go hand in hand, and is an ideal choice for stairs, balconies and other private or light commercial railing solutions.

- Economical glass balustrade solution
- Lightweight base shoe
- Quick and easy installation
- Available with stainless steel cladding or aluminum cladding with stainless steel effect
- Integrated water drainage system

- Designed for:** Light and medium use
- Use:** Indoor and outdoor
- Varieties:** Top, in-floor and fascia mount
- Applications:** Stairs and balustrades
- Material:** Aluminum
- Infills:** Glass
- Glass thickness:** 1/2" to 9/16"
- Top finish:** Cap rail, u-profile, Edge Protection and/or additional handrail

EASY GLASS® MAX

MAXIMUM STRENGTH WITH ULTIMATE TRANSPARENCY

INTERNATIONAL
DESIGN MODEL
PROTECTION

BIM

THERE IS NO LIMIT WHEN IT COMES TO EASY GLASS® MAX. THE SYSTEM CAN EASILY COPE WITH EXTREMELY HEAVY LOADS, AS WELL AS HIGH WIND PRESSURES.

The sense of space created by this glass railing system makes it a stunning addition to any public area. Choosing Easy Glass Max means you can select from four different base shoe types, all lightweight yet ultra-strong.

In addition to base shoes for regular top and fascia mounting situations Easy Glass Max includes two unique base shoes designed

to cover unfinished floor edges. The F-shaped base shoe can be mounted directly on or over the edge of a balcony floor. To hide the floor edges for a seamless installation, the Y-shaped base shoe allows for fascia mounting the balustrade directly on the edge of concrete slabs at your finished floor height.

- Suitable for use in high demand public areas
- Quick and easy installation
- Integrated water drainage system
- Aluminium cladding with a stainless steel effect for fascia mount option

Designed for: Heavy and extremely heavy use
Use: Indoor and outdoor
Varieties: Top, in-floor and fascia mount
Applications: Stairs and balustrades
Material: Aluminium with stainless steel effect (optional: IX)
Infills: Glass
Glass thickness: 27/32" to 1-1/4"
Top finish: Cap rail, u-profile, Edge Protection and/or additional handrail

- Minimalist base glass clamp system
- Fast installation - only 2 base glass clamps per meter
- Easy mounting thanks to elongated holes

Designed for:	Light use
Use:	Indoor and outdoor
Varieties:	Top mount
Application:	Balustrades
Material:	Stainless steel 316 satined
Infills:	Glass
Glass thickness:	1/2"
Top finish:	Cap rail, u-profile, Edge Protection and/or additional handrail

Extra:

- Matching base cover available

EASY GLASS® MOD 62

A NEW WAY TO EXPRESS MINIMALISM

LOOKING FOR A SOLUTION THAT IS COMPLETELY DIFFERENT AND MINIMALIST? THE SLEEK DESIGN OF THE EASY GLASS® MOD 62 BASE GLASS CLAMP GIVES YOU A UNIQUE WAY TO ACHIEVE A FULLY TRANSPARENT VIEW.

As a top mount base clamp, MOD 62 is characterized by angular square lines. It is easy to install due to its elongated holes and installation is fast as just 2 base glass clamps are needed per meter.

For the perfect finishing touch, be sure to use the corresponding base cover cap.

- Eye-catching design
- Surface mounted glass clamp with easy single anchor installation
- Built-in spirit level for easy levelling
- No visible screws

Designed for:	Light use
Use:	Indoor and outdoor
Varieties:	Top mount
Application:	Balustrades
Material:	Stainless steel 316 satined
Infills:	Glass
Glass thickness:	1/2"
Top finish:	Cap rail, u-profile, Edge Protection and/or additional handrail

Extra:

- Optional security pin for base glass clamp is available

EASY GLASS® MOD 6000

MAKE A DESIGN STATEMENT

SOMETIMES YOU JUST DO NOT WANT AN ALUMINUM CHANNEL ACROSS THE BOTTOM OF YOUR BALUSTRADE. FOR THOSE WHO ARE LOOKING FOR SOMETHING DAZZLINGLY DIFFERENT, EASY GLASS® MOD 6000 SHOWS HOW Q-RAILING SETS THE STANDARD FOR THE ULTIMATE DESIGNS IN GLASS RAILING SYSTEMS.

Easy Glass MOD 6000 is an eye-catching and distinctive base glass clamp that resembles a wide seashell. Fixed at intervals along the bottom of a glass railing, Easy Glass MOD 6000 makes it easy to create a design statement. MOD 6000's single anchor system

provides proven strength for your glass balustrades. The base shoe is designed for light use and is therefore ideal for use in private residences and light commercial property.

- Rectangular smart design
- Suitable as a glass clamp or glass adapter
- Finished with a stainless steel cover cap

Designed for: Light use
Use: Indoor and outdoor
Varieties: Fascia mount
Applications: Stairs and balustrades
Material: Stainless steel 304 and 316 satined
Infills: Glass
Glass thickness: 1/2" - 27/32"
Top finish: Cap rail, u-profile, Edge Protection and/or additional handrail

Extra:

- Optional second anchor fixing

EASY GLASS® MOD 0763

EXTEND GLASS OVER THE FASCIA

THE SMOOTH, RECTANGULAR-SHAPED EASY GLASS® MOD 0763 OFFERS YOU THE BEST OF TWO WORLDS: THANKS TO ITS MOVEABLE GLASS PIN, THIS VERSATILE COMPONENT CAN BE USED AS EITHER A GLASS CLAMP OR A GLASS ADAPTER. EITHER WAY, YOU GET ABSOLUTE SAFETY, TIMELESS AESTHETICS AND APPEALING DESIGN.

Specific to this system is the extension of the glass over the fascia for a continuous, uniform and transparent effect. You can install MOD 0763 as a glass clamp at the bottom edge between the glass panels, or place two adapters at the lower edge of each glass panel and secure with the

glass pins. Either way, the high quality stainless steel can be used both indoors and outdoors on staircases and balustrades. MOD 0763 is truly a sight to behold!

- Unique rectangular design
- Finished with a stainless steel cover cap
- Built-in spirit level for easy levelling
- Single anchor installation system (with the option of a second fixing)

Designed for:	Light and medium use
Use:	Indoor and outdoor
Varieties:	Fascia mount
Applications:	Stairs and balustrades
Material:	Stainless steel 316 satined
Infills:	Glass
Glass thickness:	5/16" - 11/16"
Top finish:	Cap rail, u-profile, Edge Protection and/or additional handrail

EASY GLASS® MOD 4762

SOPHISTICATION MEETS SAFETY

INTERNATIONAL
DESIGN MODEL
PROTECTION

THE ELEGANTLY SQUARE-SHAPED EASY GLASS® MOD 4762 IS UNIQUE IN THE MARKET AND TRULY EMBODIES THE SAYING 'LESS IS MORE'.

A sophisticated glass adapter, the Easy Glass MOD 4762 can be the 'crown jewel' in your project, a breathtaking design element that combines safety with ease of installation. MOD 4762 incorporates a

built-in spirit level that simplifies accurate alignment. The adapter is available in 316 quality, suitable for indoor or outdoor use.

Designed for: Light and medium use
Use: Indoor and outdoor
Varieties: Fascia mount
Applications: Stairs and balustrades
Material: Stainless steel 304 and 316 satin
Infills: Glass
Glass thickness: 5/16" - 1"
Top finish: Cap rail, u-profile, Edge Protection and/or additional handrail

- Glass adapter available in two sizes
- Single anchor installation
- Ideal for compact surfaces and challenging building constructions
- Offers simple adjustability
- Built-in spirit level for easy levelling

INTERNATIONAL
DESIGN MODEL
PROTECTION

EASY GLASS® MOD 0760-0762

FIRST-CLASS MULTIFUNCTIONAL DESIGN

FIND THE IDEAL BALANCE BETWEEN HIGH DESIGN STAINLESS STEEL DETAILS AND THE BEAUTIFUL TRANSPARENCY OF A GLASS BALUSTRADE WITH THE ELEGANT EASY GLASS® MOD 0760-0762 GLASS ADAPTER.

With MOD 0760-0762, the glass panels will appear to float!
Characteristic of this system is the extension of the glass over the fascia for a continuous, uniform and transparent effect.

The attractive adapters feature a single anchor installation system and built-in spirit level that saves installation time, even in difficult situations.

- Maximum transparency
- Minimalist square design
- Easy installation by threaded bar equipped with extra-safe Screw Lock

Designed for:	Light and medium use
Use:	Indoor and outdoor
Varieties:	Fascia mount
Applications:	Stairs and balustrades
Material:	Stainless steel 316 satined
Infills:	Glass
Glass thickness:	5/16" - 7/8"
Top finish:	Cap rail, u-profile, Edge Protection and/or additional handrail

EASY GLASS® MOD 4747

MINIMALIST SQUARE

INTERNATIONAL
DESIGN MODEL
PROTECTION

DO YOU WANT TO COMBINE A MINIMALIST SQUARE SHAPE WITH AN UNPARALLELED VIEW? CHOOSE EASY GLASS® MOD 4747. THE EXTREMELY MODERN DESIGN OF THIS SQUARE GLASS ADAPTER BRINGS YOUR VISION TO LIFE.

MOD 4747, the minimalist square solution in the Easy Glass range, is just what you need for light commercial or residential buildings. What you will see is clear glass with just a small stainless steel element, nothing more and nothing less. Made of 316 quality stainless steel, this stylish glass adapter is suitable for both indoor and outdoor use.

And installation is easy – MOD 4747 features a threaded bar that is equipped with an integral extra-safe Screw Lock. Think modern, choose square!

EASY GLASS® MOD 0749

A CLEAR PERSPECTIVE

WALLS AND OTHER SURFACES ARE RARELY PERFECTLY STRAIGHT. WITH EASY GLASS® MOD 0749 THAT IS NO LONGER A PROBLEM! EASY GLASS MOD 0749 FEATURES BUILT-IN ADJUSTABILITY THAT MAKES IT EASY TO POSITION THE GLASS PANELS IN ONE STRAIGHT LINE.

Place the glass adapters out of the sight line for an even greater view, or arrange them in the line of sight as a design statement. Either way, you will be able to easily straighten the glass panels on site. Featuring a choice of fixing methods, the base has space for a mechanical anchor for concrete walls or a bolt to connect to a metal stringer.

The Easy Glass MOD 0749 is just one more way that Q-railing enables you to design a custom balustrade that addresses the unique criteria and aesthetics of your project. Their rounded design lends itself to a variety of different looks.

- Easily straightens glass panels
- Multiple fixing methods and two options of projection length

Designed for: Light and medium use
Use: Indoor and outdoor
Varieties: Fascia mount
Applications: Stairs and balustrades
Material: Stainless steel 304 and 316 satined
Infills: Glass
Glass thickness: 5/16" - 1"
Top finish: Cap rail, u-profile, Edge Protection and/or additional handrail

SQUARE LINE®

STYLISH GEOMETRIC DESIGNS

SQUARE AND RECTANGULAR OPTIONS ARE THE ULTIMATE ANSWER TO A MODERN TIMELESS DEMAND. SQUARE LINE® MAKES A POWERFUL STATEMENT WITH A SIMPLISTIC DESIGN.

The sharp lines and corners of this baluster system will transform your designs with straighter and modern-looking components. Square Line is available in two variants: Square Line 40x40 (1.57"x1.57") for a 100% square look and the robust Square Line 60x30 (2.36"x1.18"), with thicker balusters that can withstand heavier loads. Because of the modularity of all Q-railing systems, you can even combine Square Line with components of any other Q-railing system. Infill choices include cables, glass or bars.

- Available in two variants: 40x40 (1.57"x1.57") and 60x30 (2.36"x1.18")
- Square Line 60x30 comes with 2-3/8" x 1-3/16" (60x30mm) uprights and 2-3/8" x 3/4" (60x20mm) handrail
- Square, geometric angles and precise lines
- Includes an extensive range of modular square components

- Designed for:** Light and medium use
- Use:** Indoor and outdoor
- Suitable for:** Top, in-floor and fascia mount
- Applications:** Stairs and balustrades
- Material:** Stainless steel 304 and 316 satined
- Infills:** Bars, cable or glass with glass clamps or glass adapters
- Glass thickness:** 15/64" - 11/16", depending on the chosen glass hardware
- Top finish:** Round or square stainless steel handrails

Extra:

- Matching cover caps for baluster posts are available

Q-LINE

THE TIMELESS CLASSIC

IF YOU PREFER ROUND SHAPES, OUR CLASSIC Q-LINE RANGE OFFERS THE GREATEST SELECTION OF COMPONENTS AND LIMITLESS POSSIBILITIES.

What makes Q-line truly classic is its timeless, minimalist design, with clean and straightforward shapes in rich satin or polished stainless steel that will never go 'out of style'. Q-line includes a surprisingly large array of superior pre-fabricated high-quality components. From the transparency of glass filled railings, to the endless lines of bar infills or the industrial look of cable, Q-line has what you need.

- Unlimited design possibilities
- Timeless look
- Extremely wide range of pre-fabricated modular components
- Available with various infills
- No welding required, installation achieved with gluing, drilling and tapping

- Designed for:** Light and medium use
- Use:** Indoor and outdoor
- Suitable for:** Top, in-floor and fascia mount
- Applications:** Stairs and balustrades
- Material:** Stainless steel 304 and 316 satined
- Infills:** Bars, cable or glass with glass clamps, glass adapters or Glass Frame Tube
- Glass thickness:** 15/64" - 11/16", depending on the chosen glass hardware
- Top finish:** Round or square stainless steel handrails

Extras:

- Matching cover caps for baluster posts are available
- Optional security pin for glass clamps are available

Q-LIGHTS LINEAR LIGHT

STEP INTO THE LIGHT

BRING AN EXTRA DIMENSION TO YOUR BALUSTRADE BY ADDING LED LIGHTING. Q-LIGHTS LINEAR LIGHT IMPROVES SAFETY WHILE CREATING AN UNINTERRUPTED LINEAR FLOW OF BEAUTIFUL AMBIENT LIGHT ON HANDRAILS AND CAP RAILS.

Aesthetically Q-lights Linear Light gives you numerous options. Create the look your project calls for with a choice of warm or cold cool white light. The LED strips are dimmable to adjust the light

to your preferences. The system comes with transparent or frosted covers. Q-lights is fully compatible with multiple Q-railing glass railings and balustrades.

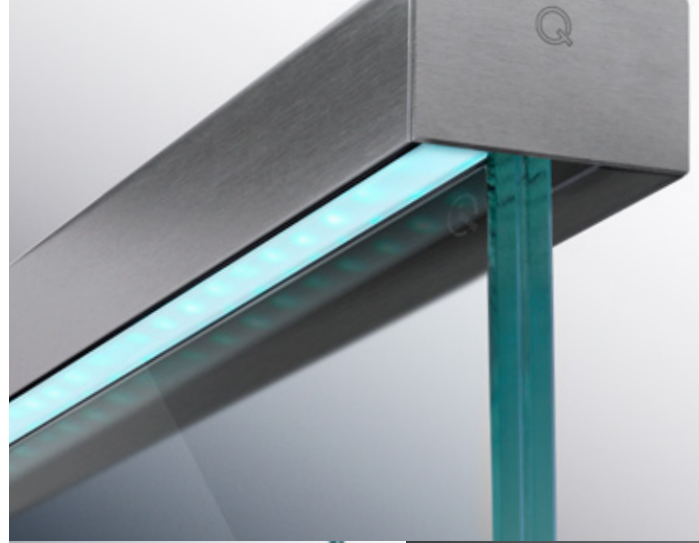

Q-lights Linear Light

Imagine using a beautiful ambient light to make a special feature of your railing. Q-lights Linear Light offers LED lighting options for handrails and cap rails. Both solutions give you a continuous, linear flow of light that contributes to both safety and ambience.

Numerous effects are possible, including the warmth of warm white light and the brightness of cool white light. You can also adjust the brightness to create just the right mood for your space. Installation is easy. With just 1 click they are installed and hidden from view.

Use: Indoor and outdoor
Varieties: Warm white light (24 V, indoor IP20/outdoor IP67), cold white light (24 V, indoor IP20/outdoor IP67)
Application: Stairs, balustrades, and wall railings

- LED strips for continuous lighting
- High-grade plastic profiles (transparent or frosted) cover the LED strips and prevent dazzle
- Pre-wired to eliminate visible cables
- Cap rail system turns a standard cap rail into a lighted cap rail
- Mounting on glass with the fitting rubber
- Specially designed Linear Light cap rail, it lets you adjust the LED strip so that it shines either in front of or behind the glass
- Suitable for retrofitting as part of a renovation
